MEMORANDUM FOR: Executive Officer, Office of Communications

SUBJECT: Survey Report - Forms and Procedures for the  
Preparation of Dispatches

1. Attached for your approval is a report proposing the Agency-wide use of improved dispatch forms in preassembled carbon interleaved sets similar to those recommended by your staff. Also attached is my memorandum transmitting a copy of the report to the Executive Officer, DD/P.

2. The proposed set will meet all your requirements for a specialized assembly of dispatch forms, with one exception. A pink pouch record copy will not be included in the set since such a copy is not needed by other components of the Agency. However, this copy can be efficiently provided for by inserting a sheet of Letterex into the set.

3. The recommendations of your staff were greatly appreciated during our study. I also appreciate your patience with the delay in completing the study, necessitated by the additional time it took to develop a more efficient dispatch form which could be used throughout the Agency rather than in just your Office.
